ICEMAN® COLD THERAPY

The therapeutic effects of cold are recognized by practitioners, as well as patients, as a useful method for reducing the symptoms of pain while providing comfort following trauma or surgery. Further, the use of cold therapy has been proven to reduce the need for narcotics, I/V pain relief medications and shortens hospital stays while accelerating rehabilitation.

The IceMan cold therapy unit helps reduce pain and swelling and facilitates rehabilitation. It provides up to several hours of continuous cold therapy for a variety of indications. Using a patented semi-closed loop system, the IceMan maintains a more constant and accurate temperature.

Features & Benefits

- Two-position locking top
- Water tight seal
- Hose stirrup
- Inlet temperature control and monitoring
- Compatibility with a variety of pads

Part Number	Description
11-0494	IceMan Unit Model 1100
11-0657-9-00000	Bed Hanger
11-0674-9-02000	Dual Pad Connector
11-1421	IceMan w/ Universal Sterile, RH
11-1422	IceMan w/ Universal Loop, NS, RH
11-1423	IceMan w/ Universal, NS, RH

Part Number	Description

25-4882	IceMan Power Supply

COLD PADS

DonJoy offers a variety of pad sizes to provide cold therapy to various areas of the body.

Features & Benefits

- Even distribution throughout the pad
- Sterile and non-sterile pads

Part Number	Description (Sterile)
11-0817-9-00000	RH, Rectangle, S (4.81" x 10.75")
11-0813-9-00000	EH, Rectangle, XL (9.76" x 13.75")
11-0815-9-00000	RH, Ankle (12.26" x 8.28")
11-0801-9-00000	RH, Universal (10.85" x 11.34")
11-0802-9-00000	EH, Universal (10.85" x 11.34")
11-0804-9-00000	EH, Universal, XL (12" x 11.34")
11-1269-9-00000	Wrist Pad (2.9" x 4.2")

Part Number	Description (Non-Sterile)
11-0675-9-00000	RH, Universal (10.85" x 11.34")
11-0676-9-00000	EH, Universal (10.85" x 11.34")
11-0678-9-00000	EH, Universal, XL (12" x 11.34")

COLD WRAPS

DonJoy offers several cold wraps to use with the IceMan cold therapy pads. These non-sterile wraps hold the cold pad in place and cover the affected area.

Features & Benefits

- Use with IceMan cold pads
- Easy application

Part Number	Description
11-0610-9-00000	Knee / Thigh
11-0611-9-00000	Shoulder, Small / Medium
11-0612-9-00000	Shoulder, Large / XLarge
11-0613-9-00000	Back, Small / Medium
11-0614-9-00000	Back, Large / XLarge

STERILE DRESSINGS

The sterile dressings provide a sterile moisture barrier between the skin and the cold therapy pad. The dressings are available in six sizes to use together with the various IceMan cold pads, including the wrap-on pads.

Features & Benefits

- Moisture barrier
- Seven sizes
- Compatible with IceMan cold pads

Part Number	Description
11-0820-9-00000	Rectangle, XLarge
11-0821-9-00000	Ankle
11-0822-9-00000	Universal
11-0823-9-00000	Universal, XLarge
11-1360-9-00000	Shoulder, XLarge

DURA*SOFT®

Designed to provide cold therapy to various areas of the body. The Dura*Soft products can effectively penetrate surgical dressings to decrease pain and edema.

Features & Benefits

- Packs provide 2 hours of cold with one application
- Removable inserts can be exchanged for extended cryotherapy
- The ice packs are malleable to provide comfortable cold therapy
- Ultra-wick fabric with antimicrobial protection
